PROFESSIONAL SUMMARY

Full Stack Web Developer focused on React.js and Node.js, with experience building responsive web applications and integrating REST APIs. Currently expanding skills in AWS and cloud technologies, looking for a Full Stack Web Developer role to contribute and grow.

EXPERIENCE

Full Stack Web Developer

June 2023 – Present

Self-Employed

Halba, Lebanon

- Engineered and deployed full-stack web applications using React.js, Node.js, Express, and RESTful APIs.
- Designed responsive user interfaces, dynamic e-commerce features, and interactive dashboards hosted on Vercel and Render.
- Utilised Git and GitHub for version control, continuous deployment, and structured repository management.

Full Stack Web Developer Trainee

Nov. 2022 – May 2023

Codi Tech

Tripoli, Lebanon

- Engineered and deployed full-stack web applications for real-world clients through an intensive 6-month coding bootcamp and leadership programme.
- Gathered and analysed client project requirements to build responsive, user-friendly, and custom dynamic web solutions.
- Collaborated within cross-functional Agile teams across all stages of the Software Development Life Cycle (SDLC).
- Tested and optimised front-end and back-end code to ensure seamless system performance and user experience.

PROJECTS SHOWCASE

Interactive Analytics Dashboard | *React.js, Chart.js, Node.js, Vercel*

[Live Demo](#)

- Developed a real-time data visualization dashboard featuring dynamic chart rendering and analytics tracking.

Video Streaming Platform (YouTube Clone) | *React.js, REST APIs, Tailwind CSS*

[Live Demo](#)

- Engineered a video streaming web application with dynamic video fetching, playback, search, and category filters.

Responsive Multi-Section Website Template | *HTML5, CSS3, JavaScript, Render*

[Live Demo](#)

- Designed and deployed a highly responsive multi-section web template optimized for cross-device performance.
